DETAILED ACTION

Allowable Subject Matter

1. Claims 1-14 are allowed.
2. The following is an examiner's statement of reasons for allowance: the claimed invention appears to be novel in view of the prior subject matter. There are many prior patents concerning the connection of a specific towing vehicle light system to a specific towed vehicle light system. However, in regards to the independent claim 1, no prior patents were found that neither disclosed nor suggested a device that had selector means that would allow different light systems of a towed vehicle to be connected to the light system of a towing vehicle by selecting either combination stop and turn signal lamps on the trailer or separate stop and turn signal lamps on the trailer. Again with regards to claim 1, no device specifically disclosed or suggested a first/second circuit device operated by the selector to connect the combination right/left rear stop and turn signal lamp to the right/left feed terminal when the selector is selecting combination stop and turn signal lamps on the trailer and to connect the right/left front turn signal lamp to the right feed terminal when the selector is selecting separate stop and turn signal lamps on the trailer.

In the same way, in regards to independent claim 10, no prior patents were found that neither disclosed nor suggested a device that had a circuit device for selectively connecting the brake feed terminal to battery voltage in the towing vehicle when the

trailer brakes are ABS-controlled air brakes and to an electric trailer brake controller in the towing vehicle when the trailer brakes are electric trailer brakes. Therefore, the claimed invention is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
